BQE Software Releases BillQuick 2014

BQE Breaks New Ground with Innovative Scheduling and Forecasting Tools for Award-Winning Software

TORRANCE, CA — March 12, 2014 — BQE Software Inc., a world leader in Time Tracking, Billing and Project Management software with more than 300,000 users world-wide, announced today the immediate availability of BQE BillQuick® 2014. In this 15th annual update, BillQuick 2014 simplifies business management by including unprecedented tools that help managers easily schedule resources and forecast revenues accurately.

"This year we are particularly proud of the advances made by our R&D team to solve one of the most difficult business problems for professional service firms: managing staff schedules in a flux environment where client needs and project schedules are always in motion," said Shafat Qazi, CEO and Founder of BQE Software. "With the introduction of BillQuick 2014's Smart and Distributed Schedule views, principals and project managers have a truly effortless tool, using some of the most sophisticated algorithms we've ever created."

The underlying theme behind all the improvements in BillQuick 2014 is a continuation of BQE's mission of Simplification, Streamlining and Sophistication. Other notable new features include:

- Invoicing that automatically includes all detailed backup information such as expense receipts
- Sending multiple invoices in a single email
- Interactive project budgeting with real-time feedback
- Memorized transactions to create recurring vendor bills and checks automatically
- Link any type of web reference (such as a Dropbox® file or a YouTube® video) to any record
- Microsoft Exchange Integration allows appointments to be instantly converted into time entries
- Numerous, powerful improvements to the BillQuick Plus version providing firms with robust accounting functionality

With over 100 powerful new features in BillQuick 2014, BQE Software Inc. establishes a formidable presence in the professional services industry.
