

bqe EngineerOffice 2013

Time is a terrible thing to waste.

Meet the smarter, faster EngineerOffice. It intelligently helps you navigate quickly, find what you need fast, and complete timecards in seconds. The areas that demand your immediate attention are clearly displayed to simplify employee and project management. Imagine having all the disparate pieces of information you deal with brilliantly organized so you always have what you need, when you need it—wherever you are. That's EngineerOffice 2013.

Vital Information at a Glance

Everything comes together on one easy-to-use dashboard. EngineerOffice's widgets narrow down the information you need so you can easily monitor:

- Contacts, clients and projects that need your attention
- Pending to-do items
- Upcoming meetings and project milestones
- Your timecard
- Status of revenues, profitability, utilization and receivables

EngineerOffice Helps You:

- Provide principals, project managers and the entire staff the essential information to keep them heading in the right direction.
- Enforce systems and procedures throughout the firm allowing you to apply all your creativity to the projects you design, rather than trying to figure out how to run them.
- Make your firm stand out as professional, efficient and on the leading edge of technology.
- Improve your cash flow with EngineerOffice invoices, created the way Engineers want them and aligned to the client's expectations—making it easier for clients to pay faster.

The screenshot displays the 'Project Task Screen' for 'Fountainhead A+E'. It features a navigation bar with tabs for Dashboard, Contacts, Time / Expense, Projects (selected), Billing, Calendar, and Reports. Below the navigation bar, there are search and filter options. The main content area is divided into sections for 'Details', 'General', 'Logs', 'Documents', 'Events', 'Tasks', 'Slips', and 'Billing'. The 'Tasks' section is active, showing a table of project phases and tasks with columns for Phase, % Progress, Budget Hrs, Task Budget Hrs, Task Actual Hrs, and Phase Actual Hrs. The table lists phases such as '01 Pre-Design', '02 Schematic Design', '03 Design Development', '04 Construction Documents', and '06 Contract Administration'. Below the phase table, there is a section for '02 Schematic Design' with a sub-table of tasks, including 'Building Elevations - Character', 'Typical Sections', 'Scope Specifications - all Divisions', and 'Schedules: Room Finish & Door'. The bottom of the screen shows navigation arrows and a record count of 'Record: 8 of 8 - Total 8'.

Simple Project Management

Scheduling, budgeting and assigning tasks is much easier when you can see where you are at any time.

EngineerOffice lets you identify and monitor each phase, track progress and compare budgeted hours and costs against actual.

As you build a true history of the time and costs associated with completing your projects you are equipped to identify inefficient employees, profit sources, and prepare competitive realistic fee proposals.
